BRAZILIAN SANTOS JAVA COFFEE

This blend of Indonesian Java and Brazilian Santos creates a wonderfully strong coffee that's full of flavour, but without any bitterness. Java, or Kopi Jawa as Indonesians refer to it, is typically a strong, slightly sweet coffee.

SMOKEY JOE'S LING TONG SUMATRAN COFFEE

This gorgeous combination of monsoon washed and Ling Tong Sumatran beans hits you immediately with its velvety sweetness, rich fruit flavours and smokey spiciness. Leaving behind an earthy and complex taste that is fantastic for a more savoury coffee.

MONSOON MALABAR COFFEE

Picked in the Malabar region of India, one of the wettest regions of southern India, a heavy bodied coffee that displays a wonderfully mellow flavour, with aromas of chocolate, spice and nuts.

TIRAMISU FLAVOURED COFFEE

The mild, medium-bodied coffee plays off the flavour combination of coffee and rich chocolate that are enjoyed in the much-loved Italian dessert.

SWISS WATER DECAFFEINATED COFFEE

Swiss Water Process is a favourite method of decaffeinating coffee: it doesn't remove the flavour and strength of coffee beans in the act of removing the caffeine, and doesn't use any chemicals. In the method, coffee beans are first soaked in hot water to remove 99.99% of the caffeine
